

ArdaghGlassPackaging 

# Spirit bottle portfolio

## Introduction

At Ardagh Glass Packaging (AGP), we elevate beverage experiences through the timeless quality of glass. For centuries, glass bottles have been the preferred choice for alcoholic drinks, valued for their purity, elegance, and unmatched ability to preserve flavour. Naturally impermeable and virtually inert, glass ensures that every sip reflects the true character of the beverage - free from unwanted interactions or alterations.

Beyond performance, glass offers a premium look and feel that enhances brand perception and consumer appeal. Its crystal clear transparency highlights the craftsmanship inside, while endless design possibilities empower brands to create distinctive and memorable packaging.

With AGP, you choose authenticity, durability, and a packaging solution that stands the test of time.

Sustainable and endlessly recyclable, glass is not only a superior packaging material - it's a responsible one.

## Standard glass containers and customised solutions

AGP manufactures a wide variety of products, from small runs to large-scale ranges. In our design department, we create innovative and technically refined packaging solutions to meet our customers' high standards.

Our product diversity, superior quality, and exceptional customer service make us the preferred supplier for national and international brand owners.

## Lightweighting

To reduce the weight of a glass container we use advanced formulations to create glass packaging using fewer raw materials and reduced energy consumption. We prefer to take the approach of 'rightweighting' - refining the weight of the bottle, while ensuring we never compromise on strength, quality, durability or functionality.

## Glass offers many advantages

- ✓ Glass is a reliable and safe packaging material, approved by key regulatory bodies: FSA, FDA, EFSA.
- ✓ Glass packaging is stable, impermeable, tasteless and odourless.
- ✓ Glass is hygienic and particularly suitable for liquid products.
- ✓ A wide range of different glass container finishes are available to suit the required closure.
- ✓ Glass is a permanent material and is endlessly recyclable.

We never compromise on strength, quality, durability or functionality.

## About us

AGP is a global supplier of recyclable glass packaging for brand owners in the beverage, food, pharmaceutical and chemical sectors. AGP operates over 30 production facilities in North America, Europe and Africa and employs approximately 12,000 people and has recorded revenues of over \$4.0 billion.

30+ Glass  
production  
facilities

12,000+  
employees

\$4bn+  
in sales

12  
countries

AGP is a leading industry player across Europe, Africa and the Americas with innovative production capabilities.
